About the Presentation:

Hosted by the Young Professionals Committee of AIAA Central Florida and the UCF College of Engineering and Computer Science, this presentation will be on the lessons learned at Lockheed Martin over the past 100 years and their strategy for taking on the challenges of the next 100 years. A Question & Answer session will be held at the conclusion of the presentation. Desserts and refreshments will also be provided.

About the Speaker ([Full Biography and Event Information](#)):

Chester N. Kennedy is Vice President and Chief Engineer of Training and Logistics Solutions at Lockheed Martin Mission Systems and Training. He is responsible for program technical excellence through the maintenance and development of engineering practices and procedures, the staffing of all program efforts, and independent audit and risk analysis.

The 1,400 engineers that Mr. Kennedy leads are responsible for developing and fielding a wide variety of products, including support equipment, flight and ground simulators, training curriculums, automated test equipment and some of the most sophisticated integrated logistics solutions in the world.

Mr. Kennedy has more than 30 years of experience in the aerospace and commercial electronics industries. He holds a Bachelor of Science in Electrical Engineering from the University of Tennessee and a Master's Degree in Business Administration from Florida Institute of Technology.

He is an Associate Fellow of the American Institute of Aeronautics Astronautics and is the Martin Federal Credit Union's Board of Directors Vice Chairman. He serves on Industry Advisory Boards for the University of Central Florida and the University of Florida.

Jose Castillo, AIAA Central Florida Section Young Professionals Officer, (407) 361-3614
