Syberg's Dorsett

2430 Old Dorsett Rd,

Maryland Heights, MO 63043

## Swords Into Plowshares

*From supersonic anti-ship missile to target drone...  
Russian and American Weapon Cooperation*

*Presented by John Reilly, Program Manager, MA-31*

At the end of the Cold War with the Soviet Union, the USA worked with Russia to adapt their Mach 2+ anti-ship cruise missile into the MA-31 target drone.

Our Speaker: John Reilly, in his over sixty-six years of experience, has had a hand in all aspects of missile design, systems integration, operations analysis, and program management of domestic and international programs. He has been involved at every stage of a product's lifecycle, from concept definition through successful flight hardware delivery and support for McDonnell Aircraft Corporation, McDonnell Douglas Corporation, and The Boeing Company.
