

LECTURE ON MISSILES AND SODA STRAW ROCKET BUILDING

By
Eugene L. Fleeman

Date: Tuesday October 4th, 2016

Location: University of Dayton, 300 College Park, Dayton, OH

Lecture: 2:00-3:15 PM in Kettering Labs 204

Rocket Building: 5:00-5:45 PM in Kettering Labs 203

Eugene L. Fleeman has 50+ years of government, industry, academia, and consulting experience in the design and development of missile systems. Formerly a manager of missile programs at the Air Force Research Laboratory, Rockwell International, Boeing, and Georgia Tech, he is an international lecturer on missiles and the author of 200+ references, including the American Institute of Aeronautics and Astronautics (AIAA) textbook Missile Design and System Engineering. He is an AIAA Associate Fellow, an AIAA Distinguished Lecturer, and a former chair of the AIAA Missile Systems Technical Committee.
