### Guest Speaker – Steve Cook President of Dynetics

Steve Cook serves as the President of Dynetics, a Leidos company. Before Leidos, Mr. Cook was responsible for the project management and direction of NASA's Ares I and V launch vehicles. Some of the many awards Mr. Cook has received include the AIAA Holger Toftoy Award in 2006, the NASA Outstanding Leadership Medal in 2007, and being named an AIAA fellow in 2016.

Currently, Dynetics leads the way for innovation in hypersonic technology, force protection, and space exploration. In April 2023, Leidos partnered with NASCAR to put a Lunar Terrain Vehicle on the moon.
