

# AIAA GHS July Luncheon

## The next 50 years of Moon, Mars & Beyond

### **Bobby Watkins, NASA Director of Human Exploration Development and Operations (HEDO)**

NASA is executing a plan to land American astronauts, including the first woman, on the Moon by 2024. This is an ambitious goal but the Agency is poised to achieve it through the Artemis program. Find out how this program sets the framework for taking us not only to the Moon, but to Mars and deep space.
