

American Institute of Aeronautics and Astronautics Dayton-Cincinnati Section

Facility Tour Friday, 13 September 2013 1:30 – 3:00 PM “AFRL Wind Tunnels”

Location

Building 24C Lobby
WPAFB, OH

Tour will be restricted to those who are able to have gate access at Wright-Patterson Air Force Base.

Please RSVP to Oliver Leembruggen at

aiaa@claybridges.com

The Air Force Research Laboratory (AFRL) wind tunnels have had a long history of supporting the work at Wright-Patterson Air Force Base (WPAFB). These facilities still play a vital role in support today and tomorrow's warfighter. Come join us as we explore the various facilities located here including the large Subsonic Aerodynamic Research Laboratory (SARL), the versatile Transonic Gasdynamics Facility (TGF), and the unique Vertical Wind Tunnel (VWT). You get to experience the past and future of wind tunnel testing technology.

(Please note that indoor skydiving will NOT be a part of this tour.)
