“The Art and Science of Origami”

Guest Speaker:
Jared Needle
Origami Artist

Location

Fox & Hound
2661 Fairfield Commons Blvd
Beavercreek, OH 45431

Appetizers will be provided.

Jared Needle is currently an origami research scientist at UES, working with both RQ and RX. He graduated in 2009 from the University of California, Santa Barbara with a BS in Mathematical Science and a minor in Physics. Origami has been a passion and hobby for him for about 18 years and he has been producing original work for the last 11 of them. His work has been featured in the television show House MD, as well as a commercial for Clear (Unilever). Currently he has pieces on display in the traveling museum exhibit Folding Paper: The Infinite Possibilities of Origami; on June 30th the exhibit reopens at Crocker Art Museum in Sacramento, CA, the 4th leg of its 11+ museum tour.

Come join us at the Fox & Hound as we learn how Jared Needle's origami skills relate to the aerospace community. Then as we socialize, you can try your own hand at folding.
