**Virtual Presentation
available to AIAA Area V
members outside of St. Louis!**

STEM & the Navy in St. Louis

FREE Special Speaker Event Hosted by AIAA at Boeing

Advanced Online Registration Required

Did you know that STEM connected to the Navy can be found throughout the St. Louis Region?!!!!

- 1) **Boeing** in St. Louis designs & produces various aircraft for the Navy such as the Navy MQ-25 (Stingray), the Navy's first carrier-based unmanned aircraft that refuels jets mid-flight.
- 2) The National Geospatial Agency (**NGA**), which has been in St. Louis for 7 decades, uses satellite images to create maps, charts, & publications for navigation in the air & on the seas.
- 3) The US Transportation Command (**USTRANSCOM**), headquartered at Scott AFB, is the U.S. military's primary logistics joint command providing air, land, and sea transportation to move people, equipment, and supplies around the world.
- 4) The Naval Talent Acquisition Group (**NTAG-MidAmerica**), headquartered in St. Louis, seeks talented individuals to lead in various STEM fields within the Navy through outreach, recruitment, and ROTC scholarships. The **US Naval Academy** recognizes the significance of St. Louis and is conducting outreach in St. Louis to inspire more students from the St. Louis area to engage in STEM careers.

Speakers include:

1) Mr. Juan Cajigas, Boeing MQ-25 Advanced Director, 2) Mr. Frederick Sanders, National Geospatial Agency Cartographer, 3) Lt Crystal Cornine, USTRANSCOM Cyber Operations Planner, 4) Commander Joshua Oakes, Naval Talent Acquisition - MidAmerica Commanding Officer, & 5) Ms. Yetanda Massey, US Naval Academy Office of Admissions STEM Outreach Dir.

Schedule

5:30-7:00 pm CT Presentation with speakers from Boeing, NGA, USTRANSCOM, NTAG-MidAmerica, and the US Naval Academy followed by Q/A.

Region V AIAA members are invited to attend virtually.

Please register ASAP at:
