Lunch 'n' Learn

TITLE HERE

Guest Speaker:

Dr. Thomas Jackson

Friday, 16 June 2016

Dr. Thomas Jackson is Senior Scientist for Hypersonics, Aerospace Systems Directorate, Air Force Research Laboratory, Wright-Patterson Air Force Base, Ohio. His primary responsibilities are to advance technologies used in Air Force aircraft and space access platforms in sustained operations above Mach 5 and to enable transition to acquisition development programs.

Dr. Jackson has had an extensive career, serving as the Deputy for Science for AFRL's High Speed Systems Division, contributing extensively to research and development in air-breathing hypersonic propulsion, vehicle aerodynamics and advanced structures for use in extreme environments.
